

NOVEMBER THANKSGIVING OFFERING

Loz Gallaher spent 6 months working for **Cambodian Hope Organization** Poipet, Cambodia.

As part of their work in fighting poverty and preventing trafficking they have set up Safe Haven School which offers full time education to Poipet's most vulnerable children. Safe Haven currently teaches grades 1-8 but aims to provide a new grade every year, enabling older students to continue their studies.

Foundations are already in place and bricks are being produced for a new building onsite for older grades. In order for this building to become a reality CHO really need support and prayers and enough funds for this good work to continue. CHO believes that today's children are tomorrow's leaders and also plan to build a university on site in the future. Even the smallest donation makes a huge difference, thank you for your support in equipping children for the future.
